■ Mathes Brierre Architects designed the Additions and Renovations to the Uptown New Orleans Branch of the Jewish Community Center. The program includes expansion of the fitness center and expansion of the existing school. Site work included the removal and replacement of the existing ell-shaped pool and diving well with a new six-lane, 25 yard lap pool and a combined splash pad/recreational pool, as well as an enhanced pool deck and play area. Once the project was underway, JCC requested to include renovations and upgrades to the Gym and additional Exterior Site Work. A Donor Wall was added after these renovations.
